

“ARRIVAL AT EXIT” NOTIFICATION

Instructions, 24 June 2015

The screenshot shows the TULLI Web Export interface for submitting an "Arrival at exit" notification. The form is titled "Arrival at exit" notification and contains the following fields and options:

- MRN of the export declaration ***: 15FI000000031953E4
- Transport operator**:
 - Operator ID *: FI 6623005-2 T0001
 - Name *: Firma Oy
- Declaration data**:
 - Data exchange language: FI - Finnish
 - Declaration date *: 24.06.2015
 - Declaration location *: Helsinki
- Location of goods at the place of exit**:
 - One of the three following data items is mandatory
 - Customs office code (*): [dropdown]
 - Geographical location (*): Street 123
 - Warehouse ID (*): FI [] R []
 - Actual customs office of exit *: FI015300 - Helsinki-Vantaa Len [dropdown]
 - FI015300 - Helsinki-Vantaa Lentotulli

Navigation buttons at the bottom: Save as draft, << Previous, Cancel, Next >>

The “Arrival at Exit” notification is submitted for all goods that arrive in their place of exit under an export procedure when they are exiting Finland in a ship, aircraft or train for non-EU territory. The “Arrival at Exit” notification is not submitted for goods transported by road. The goods can be loaded on board the means of transport after the notification has been approved by Customs.

The party who submits the “Arrival at Exit” notification must be a Web Export user with a “T” ID (Katso ID).

Only one MRN per notification

Transport operator: You must enter the details of the operator who submits the notification (the business ID of the operator logging in with a Katso ID) and the business ID extension code issued by Customs (“T” ID). **The declarant must have a valid EORI number and an authorisation to submit “Arrival at Exit” notifications.**

Location of goods: You must enter the location of the goods at the time when the notification is submitted by selecting one of three options.

Actual customs office of exit: You should enter the name of the customs office in Finland where the goods are loaded into the means of transport that will exit Finland.

The notification can be saved as a draft and sent later.

Notice on an approved notification

The screenshot shows the TULLI Web Export interface. The top navigation bar includes the TULLI logo, 'TULLI · CUSTOMS Web Export', language options (Suomeksi, På svenska), and the website URL (www.tulli.fi). Below the navigation bar, there are tabs for 'Front page', 'Search', and 'Declaration'. The 'Declaration' tab is active, showing the declaration ID 'NETT0000600805' and a list of actions: 'Declaration cover page', 'Arrival at exit', and 'Sending page'. The main content area is titled 'Declaration cover page (Read-only)' and contains 'Declaration data' with the following details:

| | |
|---------------------------|--------------------------------|
| MRN | 15FI000000031953E4 |
| Web reference | NETT0000600805 |
| Declaration type | "Arrival at exit" notification |
| Status of the declaration | Acceptance |

Below the data, there is a 'Select function' section with the text: 'You are processing the declaration data. Choose one of the following functions.' Two buttons are available: 'Copy' and 'Start new declaration'. A 'Messages and decisions regarding the declaration' table is also present:

| Message type | Message | Saved |
|------------------------|---|---------------------|
| Sent | Arrival at exit notification has been sent to Customs | 24.06.2015 13:55:15 |
| Loading permit granted | Ilmoitukselle on myönnetty lastauslupa | 24.06.2015 13:55:20 |

At the bottom, it says 'Decision type Decision Saved'. On the right side, there is a 'Call center' box with contact information for support services.

You can copy the notification by selecting “Copy”, and use it as a template for a new notification (the MRN is not copied; you must always enter it separately).

Alternatively, you can start completing a new notification by selecting “Start new declaration”.

Notice on processing by Customs

The screenshot shows the TULLI Web Export interface. The top navigation bar is the same as in the previous screenshot. The 'Declaration' tab is active, showing the declaration ID 'NETT0000600807' and a list of actions: 'Declaration cover page', 'Arrival at exit', and 'Sending page'. The main content area is titled 'Sending page (Read-only)' and contains a red warning box with the following text:

Ilmoitukselle ei ole myönnetty lastauslupaa
Vientitapahtuma on juuri nyt Tullin käsittelyssä. Saatte automaattisesti uuden vastauksen Saapuminen poistumispaikalle -ilmoitukseen käsittelyn päättyttyä.

The declaration has been sent.

Below the warning box, there is a red triangle icon and the text: 'A rejection message regarding the sent declaration was received from the Customs export system. You can check the contents of the message on the cover page of the declaration.' Below this, there is a link to 'Declaration cover page' and a button 'Add new declaration'. At the bottom, there are 'Previous' and 'Next' navigation buttons.

If the export transaction is being processed by Customs, you will receive the message illustrated above. Customs will send a loading permit automatically once it has processed the notification.

If the notification is rejected, the reason for the rejection is given in red text. A rejected notification cannot be corrected, but instead a completely new notification must be submitted. The easiest way to do this is to copy the information in the rejected notification (go to the main page and click “Copy”) and to correct the mistakes in it.
