Uljas Database Short Manual for new version

<http://uljas.tulli.fi/V3rti/>

(uljas.tulli.fi)

Example of a data retrieval

- In this guide we demonstrate a CN classification data retrieval: **CN 8-digit code 08051022** (Navel oranges), latest import statistics (EUR, KG, country of origin)
- Data retrieval principles are the same in all classifications and statistics available in Uljas
- Uljas is available in Finnish, Swedish and English. To change the language:
 - Change the interface language from the Settings icon on the left (third from above)
 - Change the database language at the top right of the database or report (FI, SV, EN)
- In case you have questions please contact Statistics Service statistics@tulli.fi or tel. +358 295 52335 (Mon-Fri 9 a.m. to 2:30 p.m.)
- (More detailed instructions will be provided later)

ULJAS - Foreign Trade Statistics

ULJAS - Foreign Trade Statistics

Uljas is a database for foreign trade statistics, from which the user can select even the most detailed data on the import and export of goods per country. In addition to foreign trade statistics, there are logistics statistics as well as reports in Uljas.

Retrieved tables can be converted into graphic displays or saved e.g. as an Excel file for further processing.

The use of Uljas is free of charge and it is available for everyone.

You can go to the **statistical database** and the **reports** via the menu on the left.

The final international trade statistics for 2017 have been published on 31 August 2018.

[Uljas updating schedule.](#)

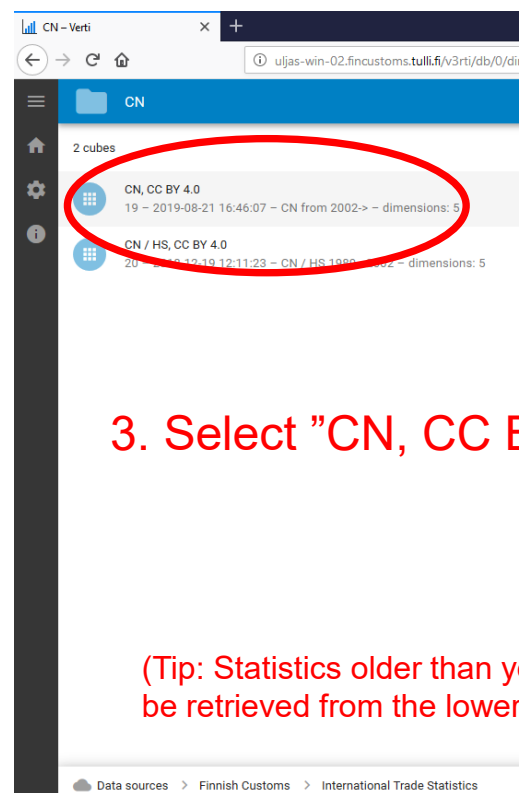

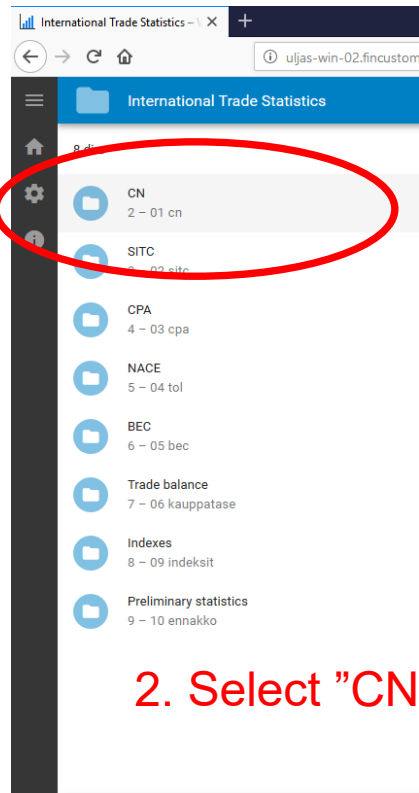

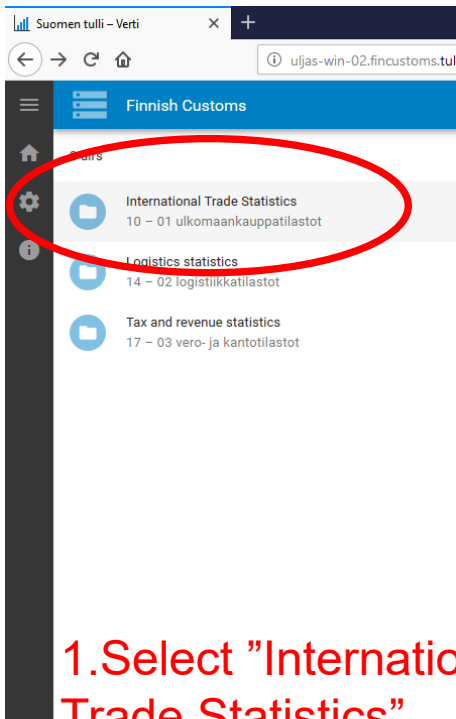

The foreign trade statistics and transport statistics published in the Uljas database are supplemented until the closing of the statistical year, that is, until the end of August following the statistical year.

We recommend that you use modern browsers like Internet Google Chrome or Mozilla Firefox for optimal functionality on our websites.

The screenshot shows a web application interface with a blue header and a dark sidebar. A red notification bar at the top reads "Query result No classes specified for classification - 1 - in query". Below this, a large white area contains red text: "(This notification appears before the code is selected)". To the right, a table lists classification codes with their counts. The second row, "Classification of Products CN8 0 / 14544", is circled in red. Below the table is a list of classification codes with checkboxes.
