

The following list contains the decisions taken by the Harmonized System Committee (72nd Session – September 2023) concerning amendments to the Harmonized System Compendium of Classification Opinions, applicable as of 1 December 2023. This publication will be updated regularly.

The Harmonized System Compendium of Classification Opinions (FIFTH EDITION 2022) is published by WCO and consists of a numerical list, set out in the order of headings and subheadings of the Harmonized Commodity Description and Coding System, of the Classification Opinions adopted by WCO. Within any Harmonized System heading or subheading the Classification Opinions are listed in chronological order. The Compendium is available as a bilingual publication in English and French, the two official languages of the WCO, and can be ordered directly (see “Online Services” > “Bookshop” on this Web site).

The amendments listed below are reproduced in the order of the current pages concerned and will be incorporated into the aforementioned WCO publication in due time by replacing the pages affected by the amendments made.

Advice

Parties seeking to import or export merchandise covered by a decision are advised to verify the implementation of the decision by the importing or exporting country, as the case may be.

AMENDMENT TO THE COMPENDIUM OF CLASSIFICATION OPINIONS

Page II/2.

Insert the following Classification Opinion :

- “1302.19 1. Cannabis extract** containing primarily cannabidiol (CBD) (1200 mg CBD/10 ml), cannabinol (CBN), cannabigerol (CBG) and less than 0.2 % delta-9-tetrahydrocannabinol (delta-9-THC), obtained from *Cannabis sativa L.* plants. It is not intended to treat any disease.

The product is put up in packings for retail sale with two replaceable cartridges of 5 ml.

Application of GIRs 1 and 6.”

Page IV/30a.

Insert the following Classification Opinion :

“2106.90 42. Product containing cannabidiol (CBD). Oily solution composed of CBD hemp extract (1000 mg CBD/10 ml), hemp seed oil and mint flavour. It contains less than 0.2 % delta-9-tetrahydrocannabinol (delta-9-THC). It is not intended to treat any disease.

The product is presented in a 10 ml bottle with dropper.

Application of GIRs 1 and 6.”

~~Page IV/30a.~~

~~Insert the following Classification Opinion:~~

~~**“2106.90 43. Food supplement** in syrup form, consisting of the following ingredients: water, sugar, liquid glucose, honey, malt, vitamin B₁, vitamin B₂, vitamin B₃, vitamin B₅, vitamin B₆, vitamin B₉, vitamin B₁₂, vitamin C, L-lysine monohydrochloride, zinc sulphate, copper sulphate, manganese sulphate, potassium iodide, calcium glycerophosphate, ferric ammonium citrate, citric acid, orange oil, beetroot extract and mixed carotene, xanthan gum, potassium sorbate.~~

~~This preparation is claimed to help to maintain human health and vitality, reduce fatigue and contribute to the normal formation of red blood cells and haemoglobin. The recommended daily dosage is one half to two teaspoons, once or twice a day, depending on the person's age. The preparation is put up for retail sale in 200 ml bottles.~~

~~**Application of GIRs 1 and 6.**~~

~~*See also Opinion 2202.99/10.”*~~

~~Page IV/30a.~~

~~Insert the following Classification Opinion:~~

~~**“2106.90 44. Liquid food preparation,** packaged in a carton containing individual servings of 65 g, available in various fruit flavours, intended to be consumed as “iced lollipops” after freezing. It consists of water, sugar, fruit juice from concentrate, citric acid, pectin, guar gum, ascorbic acid and colour. It is presented in liquid form for convenience of transport and must be frozen before consumption.~~

~~**Application of GIRs 1 and 6.”**~~

Page IV/30a.

Insert the following Classification Opinion:

- “2106.90 45. Food preparation called “pizza mix”, containing low fat cheese curd (mozzarella) (82.5 %), palm oil (11.5 %), potato starch (4.5 %) and other ingredients (1.5 %), mixed in a warm phase, cut into filaments, shaped and cooled, cut into strips or cubes, and frozen.**

Application of GIRs 1 and 6.”.

Page VI/40.

Insert the following Classification Opinion :

- “3824.99 21. Heat transfer fluid designed for non-pressurised or low-pressure indirect heating systems.**

The product is obtained via dehydrocondensation of a polyphenyl mixture, distillation to remove biphenyls and other impurities remaining in the mixture, and finally hydrogenation.

The product contains

- terphenyl, partially hydrogenated (CAS RN 61788-32-7) (74 - 87 %),
- polyphenyls, quater and higher, partially hydrogenated (CAS RN 68956-74-1) (10 - 18 %) and
- terphenyl (CAS RN 26140-60-3) (3 - 8 %).

Application of GIRs 1 and 6.”.

Page VII/15.

Insert the following Classification Opinion:

- 3926.40 1. Ornamental article of plastics presented in the shape of a penguin family, illuminated from the inside by 48 LEDs, for outdoor use. The product is not used for the illumination of rooms or for exterior lighting.**

Two penguins are attached to each other, forming a single piece, measuring 23 cm in height and 26 cm in width, while the third penguin measures 22.5 cm in height and 14 cm in width. A power cord connects the product to a transformer of an effect of 3.6 W and an output voltage of 24 V. The effect per light source is 0.02 W.

Application of GIRs 1, 3 (b) and 6.

”

Page VII/21.

Insert the following Classification Opinion:

- “4008.21 2. Dental dam**, consisting of thin sheets of vulcanised non-cellular rubber, in the form of a square (152 mm x 152 mm) with perpendicular corners, presented in different colours and with a peppermint aroma.

The product is used in dentistry to isolate one or more teeth during an intervention.

Application of GIRs 1 (Note 9 to Chapter 40) and 6.

See also Opinion 4014.90/2.

”

Insert the following Classification Opinion:

- “4014.90 2. Dental dam**, consisting of thin sheets of vulcanised non-cellular rubber, in the form of a square (152 mm x 152 mm) with rounded corners, presented in different colours and with a peppermint aroma.

The product is used in dentistry to isolate one or more teeth during an intervention.

Application of GIRs 1 and 6.

See also Opinion 4008.21/2.

”

Insert the following Classification Opinions :

- “7007.19 1. Display cover glass for smartphones** made of tempered safety glass, having a rounded rectangular body with holes for a camera, a speaker and a home-button respectively.

After the glass is cut into the desired shape and strengthened, it is coated to improve its performance (e.g., infra-red (IR) selectivity, anti-reflective (AR) and anti-fingerprint (AF) coatings). However, it is not printed with electro-conductive ink.

The product is to be incorporated into the display of specific smartphones to protect it from drops and scratches.

Application of GIRs 1 and 6.

- ”
.
- “7007.19**
2. **Display cover glass for smart refrigerators** made of tempered safety glass, having a rectangular body with rounded edges.

After the glass is cut into shape and strengthened, it is printed and coated to improve its performance (e.g., non-conductive shielding ink printing and anti-fingerprint coatings).

The product is to be incorporated into the display of a specific (so-called) “smart” refrigerator to protect it from scratches.

Application of GIRs 1 and 6.

”
.

Page XVI/111.

Insert the following Classification Opinion:

- “8528.71 5. Electronic device**, equipped with an HDMI port, two USB ports, an Ethernet port, a memory card reader, 1 GB of RAM, 8 GB ROM data storage, and an operating system (dimensions: 100 x 100 x 17 mm), presented with an infrared remote control.

It is designed to be connected to the Internet via wired or wireless connection, and to a television set. The purpose of the device is to process data, execute programmes, exchange and manage e-mails, exchange or download files, and download software applications, which allow audio and video streaming through an IP network on the connected television set. It receives digital signals and converts them into a signal suitable for display on a television set. The unit does not contain a tuner.

Application of GIRs 1 (Note 6 (E) to Chapter 84) and 6.

1. Power supply port
2. Ethernet port
3. HDMI port
4. AV output
5. IR remote control port
6. USB port
7. USB port
8. Memory card reader”.

Page XVI/129. Opinion 8543.70/5.

Renumber present Opinion 8543.70/5 as 8541.51/1.

Last line, delete "**Application of GIRs 1 and 6**" and substitute "**Application of GIRs 1 (Note 12 (a) (i) to Chapter 85) and 6**".

Page XVI/121.

Insert the following Classification Opinions :

- “8539.39 1. Electric lamp for motor vehicles**, consisting of a high-intensity discharge (HID) xenon bulb, a ballast and a power cord.

Specifications :

- Voltage : DC 12 V;
- Power : 35 W / 55 W / 75 W;
- Luminous flux : 3,800 lm;
- Colour temperature : 3,000 K / 6,000 K / 1,000 K / 12,000 K.

Application of GIRs 1 (Note 2 (a) to Section XVI) and 6.

- “8539.52 3. Electric lamp for motor vehicles**, consisting of an LED headlight bulb, a hydraulic bearing fan and a power cord.

Specifications :

- Voltage : DC 12 V – DC 18 V ;
- Power : 80 W ;
- Input : 2.8 A ± 0.2 A ;
- Luminous flux : 15,000 lm ;
- Colour temperature : 6,000 K.

Application of GIRs 1 (Note 11 (b) to Chapter 85) and 6.

- “8539.52 4. Electric lamp for motor vehicles** consisting of a LED headlight bulb with an external voltage regulator, an integrated cooling fan and a power cord.

Specifications :

- Voltage : DC 9 - 16 V;
- Power : 110 W;
- Luminous flux : 20,000 lm;
- Colour temperature : 6.000 K.

Application of GIRs 1 (Note 11 (b) to Chapter 85) and 6.

Page VIII/7.

Insert the following Classification Opinion:

- “9029.20 2. Traffic and speed enforcement laser**, equipped with a screen that displays images and the results of measurements (speed, distance, time etc.), a digital camera that captures video and still images, interfaces that allow transmission of collected data for further processing, and a memory card for data storage. It is designed to be held in hand, installed in a box or mounted on a tripod.

It measures the speed of vehicles by means of laser. As an optional feature, it measures the distance between vehicles.

Application of GIRs 1, 3 (b) and 6.

Page XVIII/21.

Insert the following Classification Opinion:

- “9102.12 1. Battery-operated running watch** designed to be worn on the wrist. The watch is equipped with a heart rate monitor, GPS and buttons for controlling the functionalities of the device as well as a USB connector. The display size is 23 x 23 mm (128 x 128 pixel resolution).

The running watch without being paired with another device can be used to :

1. display the time and date, and function as a stopwatch;
2. measure heart rate;
3. track the number of steps taken.

The watch can be paired or connected with other devices via Bluetooth or USB allowing further features such as :

1. creation of a programme of sports activities;
2. reception of phone notifications without the capacity to reply;
3. measurement of sleep quality.

Application of GIRs 1 (Note 1 (n) to Section XVI), 3 (c) and 6.

See also Opinions 8517.62/21 to 8517.62/24.

Page XX/15.

Insert the following Classification Opinion :

- “9405.49 1. Window decoration** in the shape of a Christmas tree with a double-sided design, and 50 coloured bulbs on a wire attached to the frame that forms the shape. The lighting product is for indoor and outdoor use.

Application of GIRs 1 (Note 1 (u) to Chapter 95) and 6.

33

Page XX/16.

Insert the following Classification Opinion :

- “9406.90 1. Conservatory** (or garden room) consisting of a metal structure, glass windows and doors, and a fixed roof. It consists of three walls, designed to be fitted permanently to an existing building. The weatherproof construction is connected to the building by an opening in the wall, fitted with a door.

Application of GIRs 1 (Note 4 to Chapter 94) and 6.

Page XX/21.

Insert the following Classification Opinion :

“9503.00 14. Robotic toy for children, intended to entertain, educate and engage. It is paired with an application to allow for interactive play and learning through a display screen. This robot can provide the appearance of responsive emotion.

Specifications :

- Dimensions : 15 cm (L) x 14 cm (W) x 22 cm (H);
- Weight : 960 g;
- Maximum speed : 0.5 m/s;
- Camera : resolution 5 Mpx, field of view 81 degrees FOV;
- Microphones : dual MEMS microphones;
- Display : 4.5" TFT color HD display with touch screen.

Application of GIR 1 (Note 1 (p) to Section XVI).
