Entry and exit declarations

The screenshot shows the TULLI web application interface. At the top, there is a navigation bar with the TULLI logo, the text "TULLI TULLI CUSTOMS", and "Safety and Security Declaration Service (EX)". There are also language options for "Suomeksi" and "På svenska", and the website URL "www.tulli.fi". Below the navigation bar, there are buttons for "Front page", "Search", and "Declaration". The user is logged in as "j8o3n9 (6623020-4)" and there is a "Log out" link. A "Hide Help" button is also present.

The main content area is titled "Declarations" and is divided into three sections:

- Entry declarations**
 - Entry summary declaration
 - Summary Declaration
 - Arrival notification
 - Arrival notification and presentation
 - Diversion request import
- Storage notifications** (circled in red)
 - Arrival notification (for temporary storage)
 - Unloading report
- Exit declarations**
 - Exit summary declaration
 - Exit manifest presentation
 - Exit notification

A green box with the text "These require identification" has a line pointing to the "Storage notifications" section.

On the right side, there is a "Help" window that says "No Help available." and a "Call center" box with the following information:

- System info**
- Disruptions to email**
[Read whole info](#)
- Call center**
Support Service tel. +358 295 5207 (Mon-Fri 8-16),
0 cents/min + local network rate/standard mobile rate.

At the bottom left, there is a status bar that says "Ready."

Unloading report: Basic information

- **Transaction identifier:** not in use unless you are amending a declaration submitted earlier
- **Declaration reference number (LRN):** the reference number used by the person submitting the declaration. With the LRN, the goods included in the declaration can be identified (e.g. manifest number, number relating to vessel calls, number of the consignment note).
- **Conveyance reference number:** enter only the flight or train number
- **Total number of items:** enter the number
- **Total number of packages:** the total number of packages or, for bulk goods, number of pieces
- **Identity of active means of transport:** in sea traffic, enter the IMO number, in road traffic the registration number of the vehicle and in rail traffic the number of the rail wagon. The flight number is not entered
- **Temporary storage identification:** enter the identifier of a temporary storage facility approved by Customs
- **Customs office of entry:** select the customs office from the menu.
- **Place of unloading:** Enter first the country code FI, then the name of the port, airport, freight terminal, railway station or other place
- **Date and time of unloading:** select the date in the calendar and add the time

Help

In the Help window, you can open a help dialog box related to the field to be filled in. By positioning the mouse pointer over the top of the Help window, you can move and place it elsewhere the screen.

[Help](#)

The details are shown on the basis of the EORI number

The declarant must have an EORI number.

The fields under “Representative” will be displayed when you click the heading

Unloading report: List of unloading items

The screenshot displays the TULLI web application interface. At the top, the TULLI logo and 'TULL · CUSTOMS' are visible, along with the text 'Safety and Security Declaration Service' and language options for 'Suomeksi' and 'På svenska'. The URL 'www.tulli.fi' is also present. Below the header, there are navigation tabs for 'Front page', 'Search', and 'Declaration'. The user is logged in as 'yx2p63 (0245442-8)' and can click 'Log out' or 'Hide Help'.

The main content area is titled 'List of unloading items'. It contains the text: 'This declaration covers following unloading items'. Below this, there is a table with two columns: '#', which is currently empty, and 'MRNs'. To the right of the table is a button labeled 'Add unloading item'. At the bottom of the table area, there are 'Previous' and 'Next' navigation buttons.

On the left side, there is a sidebar menu with the following items: '044 Unloading report', 'Declaration front page', 'Basic information', 'Unloading items', 'List of unloading items' (which is highlighted), and 'Summary and sending'.

On the right side, there is a 'Help' window. The text inside the help window reads: 'In the Help window, you can open a help dialog box related to the field to be filled in. By positioning the mouse pointer over the top of the Help window, you can move and place it elsewhere the screen. Enter the MRN of all the items for which an unloading report will be submitted and click the 'Unloading item' button.' There is a 'Help' link at the bottom of the window.

Unloading report: Goods item 1

- **Code:** enter the commodity code, if known, at the level of at least 4 digits.
- **Goods descriptions/discrepancies:** Enter the goods description or the changed details, e.g. the ID of the container with excess or missing goods.
- **UN dangerous goods code (UNDG):** dangerous goods are reported using a unique four-digit serial number
- **Unique consignment reference number (UCR):** the field is left blank if the transport doesn't have a UCR (WCO)
- **Gross mass (kg):** enter the gross mass of the goods item
- **Packages:** the total number of packages or, for bulk goods, number of pieces You can enter the container number in the field **Marks and numbers of packages** if the goods are carried in a container
- **Produced documents/certificates:** select the document code from the menu and provide the document number
- **Special mentions:** this field is usually left blank
 - If the carrier, declarant and consignee have been granted the AEO status, code 'E' can be used here
- **Containers:** If the goods arrive in containers, enter the IDs of sea containers; in air transports, the container numbers are not entered
- **Seal identifiers:** enter the seal identifiers, if seals have been used

Unloading report: List of items

The screenshot shows the TULLI web application interface. At the top, there is a header with the TULLI logo and the text 'TULLI TULL · CUSTOMS | Safety and Security Declaration Service'. There are also language options for 'Suomeksi' and 'På svenska', and the website URL 'www.tulli.fi'. Below the header, there are navigation tabs for 'Front page', 'Search', and 'Declaration'. The 'Declaration' tab is active. On the right side of the header, there is a user identifier 'yx2p63 (0245442-8)' and a 'Log out' link, along with a 'Show Help' button.

The main content area is titled 'List of items'. It contains the following text: 'Following goods items are associated with this unloading item'. Below this, there is a table with the following structure:

Goods item	State	
1	Must be corrected	Goods item details must be corrected Delete

Below the table, there is a form for adding a new goods item. It consists of a text input field labeled 'Goods item', a checkbox labeled 'Goods item OK', and an 'Add goods item' button.

At the bottom of the page, there are two navigation buttons: 'Previous' and 'Next'.

Unloading report: Summary and sending

The screenshot shows the TULLI web application interface. At the top, there is a navigation bar with the TULLI logo, the text 'TULLI TULL · CUSTOMS Safety and Security Declaration System', and language options for 'Suomeksi' and 'På svenska'. Below this is a secondary navigation bar with 'Front page', 'Search', and 'Declaration' tabs. The user is logged in as 'yx2p63 (0245442-8)' and there is a 'Log out' link.

The main content area is titled '044 Unloading report' and contains a sidebar with a tree view of report sections: 'Declaration front page', 'Basic information', 'Unloading items', 'Summary and sending', and 'Summary and sending' (highlighted). The 'Summary and sending' section is expanded, showing a list of errors:

- Contact person's name missing.
- Contact person's phone number missing.
- Enter either the declarant's or the representative's details.
- Declaration reference number (LRN) missing.
- Time of unloading missing.
- Total number of items missing.
- Total number of packages missing.
- Customs office missing.
- Trader identification number (TIN) country code missing.
- Trader identification number (TIN) identifier missing.
- Trader identification number (TIN) extension missing.

Below the error list, there is a section titled 'Declaration contains errors' with an envelope icon and a warning message: 'The errors must be corrected before the declaration can be sent. Use the side navigation bar to correct the incorrect entries and save the data. Then return to the Summary and sending page to resubmit the declaration data.'

Underneath, there is a section titled 'Declaration data' with a sub-section 'Basic information' containing a list of fields:

- Transaction identifier
- Declaration reference number (LRN)
- Conveyance reference number
- Identifier of means of transport
- Total number of items
- Total number of packages
- Place of unloading
- Date and time of unloading
- Temporary storage identification number
- Identification number extension
- Customs office

Although the program asks the user to provide missing details already when the user moves from one page to another, some of the missing or incorrect details may only be displayed on the last sending page either before or after the sending of the declaration.

The submission can only be made if the characters suggested by the program have been entered in the field at the bottom of the page
