

Finnish Customs  
ULVE Department/Statistics

<b>Name of the information system:</b>
<i>Intrastat collection system</i>
<b>Party in charge of the information system (mandatory)</b>
<i>Customs' Foreign Trade and Taxation Department</i>
<b>Unit and person in charge of the information system</b>
<i>Statistics of Customs' Foreign Trade and Taxation Department</i>  <i>Application Manager: Sofia Lahdensuo</i>
<b>Purpose of the information system</b>
<i>The Intrastat collection system is a collection system for statistics on the goods trade between Finland and other EU countries.</i>
<b>Data sources</b>
<i>Customs' customer register serves as the data source for the system. The declarants' declarations in the system are collected via Customs' Intrastat Declaration Service and direct message exchange.</i>
<b>The data are for the years/start from the year</b>
<i>The system contains data for the current year and the two previous years. The data collected and accepted in the system are retrieved each week to the T2000 statistics system. Old data are removed after 2 years from the closing of the statistical year.</i>
<b>Data update frequency</b>
<i>New declarations arrive to the information system continuously.</i>
<b>Openness/confidentiality of the information</b>
<i>All data collected in the information system are confidential (see section 'Confidential information').</i>
<b>Public information by data group</b>
<i>The information system does not contain public information.</i>
<b>Confidential information</b>
<i>The confidentiality of detailed information is based on section 13 of the Statistics legislation. All detailed information collected in the information system is confidential.</i>
<b>Public address of the information system</b>
<i>Only a restricted group of Customs' personnel have access to the information system, therefore, it does not have a public address.</i>

Director in charge: Olli-Pekka Penttilä, tel. 0403321862.
