

Customer notice 22 January 2021

Cross the border faster – print out your bar code

Persons who lodge entry summary declarations in road traffic can print out the MRN of the entry summary declaration provided by Customs as a bar code. Customers can print out the bar code and give the print to the driver. When the driver presents the goods and the bar code to Customs upon arrival at the border, transactions with Customs take place faster.

Further information is available at the e-mail address [turvatieidot\(at\)tulli.fi](mailto:turvatieidot@tulli.fi).

The screenshot shows the TULLI web interface. At the top, there is a navigation bar with the TULLI logo, the text "TULL · CUSTOMS", and links for "Safety and Security Declaration Service (EX)", "Suomeksi", "På svenska", and "www.tulli.fi". Below the navigation bar, there is a "Front page" button and a "Log in using Suomi.fi authentication" link. The main content area displays a message: "Declaration saved successfully". Below this message, the MRN is shown as "21FI000000000376I4". A large barcode is displayed, with the MRN "21FI000000000376I4" printed below it. The time stamp is "21.01.2021 16:21". Below the time stamp, there is a section titled "MRN by email" which contains a form with two fields: "Email address *" and "Covering note". A "Send email" button is located below the form. At the bottom of the page, there is a "Print this page" button.
